MONEY, STOCKS AND GRAIN

Upward Movement on 'Change Checked by the Heavy Engagements of Gold.

Burlington and St. Paul Were the On'y Ac ive Grangers - At Indianapolis All Grains Were Essi r and Recei; ts Light.

THE BOND MARKET.

Railroad Issues More Active, but Quotations

Very Unsettled. At New York, yesterday, money on call was easy at 1@11/2 per cent., the last loan being made at 1 per cent., closing offered at I per cent.

Prime mercantile paper, 3@51/2 per cent. Sterling exchange was quiet but firm at \$4.874 for sixty-day bills and \$4.8842 for demand.

The total sales of stocks to-day were \$18,183 shares, including the following: Atchison, 7,300; Chicago Gas, 19,872; Erie, 8,810; Hocking Vatley, 3,400; Louisville & Nashville, 4.953; Missouri Pacific, 6,849; North American, 3,625; Northern Pacific preferred, 5,248; New England, 19,460; Reading, 28,810; St. Paul, 56,173; Union Pacific, 6,663; Wheeling & Lake Erie, 4,700.

The stock market still displayed a moderate volume of business, but the neward movement was checked and a partial reaction occurred, though the losses in a few cases were of special importance. There were early circulated rumors to the effect that \$2,000,000 gold would be taken for export on Saturday, and for once the predictions did not overstate the amount, while the prospects are that further amounts will go forward. This was one of | Edge, 54c; Gilded Age, 74c; Hill, 74c; the most powerful influences in restricting the buying, but the bears were more aggressive than for the last few days, and with considerable selling by London and realizations of profits by the local buils, than they have held of late. The buying in the grangers was still marked, but outside of St. Paul and Burlington there was little activity engendered. The rally in New England was succeeded by a turn in the other direction and it was again one of the prominent weak points in the market, North American being another on the uncovering of some stop orders, though the trading in it was small throughout. The coalers were

comparatively neglected.
Railroad bonds were somewhat more active, but displayed an unsettled temper and the final changes this evening are quite irregular. There was little animation outside of the Reading incomes. Government bonds were dull and steady. State bonds were entirely neglected. Clos-

BLACK NEWS FROM RUSSIA

Report that the European Wheat Crop Is No Better than Last Year's.

Fulls Took Encouragement and Ru hed Into the Pi s, Brosting the Leading Certa: 11-8 Cont, Which Was Afterward Lost.

TRADING AT CHICAGO.

Corn and Oats Strengthened and Held Most of the Gain.

CHICAGO, June 15 .- Black news from Russia as to crops lifted wheat over 1 cent here, to-day, from an early break attributed in part to apprehension of the Hatch anti-option bill being likely to pass the Senate. Corn flew up with wheat, and provisions were again strong. Wheat, at the opening, was 12@4c per bu lower than yesterday's closing, but rallied with prices. advancing 1'sc, again eased off, prices fluctuating several times within a small range. and finally closed 'sc lower than yesterday. Big receipts in the Northwest, fine weather and the generally favorable weekly crop bulletin reports, together with lower cables, all exerted an unfavorable effect upon the market at the start. There were also reports of barvesting in some sections of Kansas, in Oklahoma, and to commence next week in California. But at the decline there was sharp demand, shorts commencing to cover. Then came a cablegram, claimed to be official, which stated that the crop in Russia was worse than the crop of 1891. There were also reports of damage to the crop here by hot winds.

The poor quality of the late arrivale of corn bad a builish effect, and the fact that the cash market holds up well also was used to keep the price up in this speculative market. Room traders were operating on the long side of the market, and this had a sustaining influence. Out of 878 cars in to-day only hfty-three were deliverable on contracts. Initial trades were at 40 decline on fine weather, but on buying by prominent commission houses and covering by shorts the market advanced 140 1%c, declining later 12@%c on expectations of liberal receipts. Compared with last night final prices show a net gain of

Oats opened up weak at 4c under yesterday's figures, but ruled firmer with wheat and corn later in the session and closed firm, 40 %c higher. Elevator men disposed of fair quantities early. The provision market started very weak,

in sympathy with the break at the opening in wheat and corn, but the moment those markets gave indications of advancing the hog products quickly became strong. Webb bought a considerable quantity of ribs, supposed to be for account of Ryan, who was previously short. G. C. Moore bought some pork, which it was surmised might be for Wright's account. The hog market was reported lower, but that had only a momentary effect at the opening. The close was close to top prices. and compared with last night, is 740 up for pork, .05c for lard and .10c for ribs. Freights were strong, with a good demand for vessel room at 2c for wheat, 14c for corn and 14c for oats to Buffalo. Estimated receipts for to-morrow are: Wheat, 128 cars: corn. 1.020 cars: oats, 315 cars: hogs.
